Preface

This publication presents the current approval status of the professional educator preparation programs at colleges and universities in Maryland that offer programs leading to initial and advanced level certification. The Maryland Program Approval and Assessment Branch conducts on-site reviews every five to seven years for fully approved programs and follow-up visits to programs on probation. State and national standards are applied in the evaluation process.

The first section of this publication lists programs by institution. Programs in the listings are shown as baccalaureate (basic undergraduate) or post-baccalaureate (certification only or certification and a graduate degree). The listing by institution also indicates the initial date of approval, the date of the most recent program review and the approval status.

The approval status is presented as **full** or **probation**. Full approval is a period of five to seven years from the date of the review. *Probation is a form of approval that is limited to one or two years with state monitoring.* During probation the institution and its students receive the benefits of state approval. To conclude the probationary status, thereby restoring full five to seven year approval from the date of the original visit, the State Superintendent determines that the conditions of probation have been met. If these conditions are not met, the State Superintendent terminates state approval.

Maryland statute requires colleges and universities with an enrollment of 2000 full time equivalent (FTE) or more students to become accredited by the Council for Accreditation of Educator Preparation (CAEP). Colleges and universities with an enrollment of less than 2000 FTE may choose to seek CAEP accreditation. This publication displays the CAEP logo for those institutions that have earned the CAEP accreditation.

Following this section is a listing of all approved programs by certification area. For example this section lists all of the elementary education programs in the state under the heading of “elementary education.”

This publication of approved education programs is updated regularly on the Maryland State Department of Education’s website www.marylandpublicschools.org for all Maryland colleges, universities, school personnel officers, as well as certification officers in other states and any other interested institution or agency.

Program Verification

OTHER IMPORTANT HISTORICAL INFORMATION

Program Listing Explanations

- **Administration Certificates**

Maryland issues administration certificates for administrative assistants, supervisors, principals and superintendents. To qualify for **principal** assignments, individuals are required to successfully meet the state qualifying score on the School Leaders Licensure Assessment (SLLA), which is Maryland's principal candidate assessment.

- **Dual Programs**

Programs listed with a diagonal mark (/) between titles are dual programs. For example: **Early Childhood/Elementary** indicates a candidate has completed program requirements for both certification areas.

- **Program Concentrations**

Program listed with a colon (:) after the certification field identify a particular concentration within the field. For example: **Music: Vocal** indicates a candidate has completed program requirements for certification as a music teacher with a concentration in voice.

- **Program Levels**

Levels separated with a semi-colon (;) indicate that a program leads to certification at different levels. For example: a Special Education: Generic program which lists **Infants-Grade 3; 1-8; 6-12** as the levels indicates that completion of the program leads to certification at the Infant-Grade 3 **OR** 1-8 **OR** 6-12 level.
